ITEms 2016, Issue 2

ITEms Edited by: Ashley Hochstatter (HDR, Inc.) - illinoisite.editor@gmail.com

PRESIDENT'S MESSAGE

By Tracy Shandor, Kimley-Horn

Greetings! We know everyone is anxiously awaiting the District Meeting kick-off this Sunday and we look forward to seeing everyone there.

The Section has been busy over the last few months (no, not just planning for the upcoming District Meeting), hosting the following events:

- March 11th - ITE Student Day event held at the Illinois Institute of Technology (IIT)
- April 20th - Lunch Presentation by **Kay Batey**, Division Administrator of the Illinois Division of the Federal Highway Administration, regarding the FAST Act
- May 17th - Luncheon and Bus Tour of the newly constructed DDI at I-88 & IL 59 in Naperville, presented by **Jason Salley**, IDOT District 1 Geometrics Unit Head, and hosted by the **City of Naperville**
- Two Lunch & Learn technical events: March 24th - Scalability of Roundabouts and May 5th - Integrating Speed Management within the Three Safety Focus Areas: Roadway Departure, Intersections, and Pedestrian and Bicyclist.

Tracy Shandor

Look for summaries about the events that have occurred since February and dates for some of the events coming up this summer in this issue of ITEms. The Board is working together to provide events that meet the desires of the Section, and would love to hear from you if you have speakers/events that you would like to see at a meeting in the future.

In addition to planning the District Meeting, **Chester Kropidlowski** participated in the planning meeting for the Traffic Engineering and Safety Conference (TES), which will be held in Champaign October 19th and 20th. Thank you, Chester, for continuing to serve as the coordination chair for the event.

We are anticipating a very successful Joint District Meeting next week and would like to take a moment to extend a sincere thank you to all of our local members who have been involved in the planning of the event, which has been going on for over two years now. THANK YOU! Many, many, many thanks to the conference co-chairs, **Josh Harris** and **Erik Cempel**. Their leadership and dedication has allowed for a smooth planning process and has set the Section up for another successful event in Chicago. The following local members served on the planning committee for the meeting, please thank them when you see them at the meeting next week, or at other events this summer:

- | | |
|------------------|----------------------------|
| • Katelyn Bleach | • Ryan Jacox |
| • Jenna Brose | • Kalpana Kannan-Hosadurga |
| • Kelly Dunne | • Mike Phan |
| • Tom Glueckert | • Brian Roberts |
| • Chad Hammerl | • Monica Shei |

- Ashley Hochstatter
- Mouyid Islam
- Craig Jakobsen
- Abrar Siddiqui
- John Wirtz

We are excited to bring several events to the Section this summer:

- June 26-28th - Midwestern / Great Lakes Joint District Meeting (Holiday Inn Chicago Mart Plaza)
- July 12th - Snack and Learn Webinar: Using Technology for Practical Purposes in Work Zones (303 E. Wacker - AECOM)
- July 14th - Summer Social - Kensington Roof Garden and Lounge in Chicago
- The annual Golf Outing will be held on August 19th at the Bloomingdale Golf Club.

Hope to see everyone at these upcoming events!

Midwestern District News

For the ongoing Midwestern District 2017 Election, the Missouri Valley Section has nominated the following two candidates for Secretary - Treasurer position:

- [Martin Gugel](#), P.E., PTOE, FITE, Springfield, MO
- [Brian J. Wilham](#), P.E., PTOE, Des Moines, IA

Voting ends on **June 26th at 8pm**, so if you haven't done so already, please make sure to vote using your personalized link before Sunday night.

Looking forward to the District Meeting and all of the events this summer!

Illinois Section News and Announcements

Student Affairs News and Announcements

By Student Affairs Director Craig Jakobsen, P.E.

Graduation Information for Students

Congratulations to our ITE student chapter members who are graduating this spring/summer, and best wishes from the Illinois Section on a bright future and prosperous career! Upon graduation, please remember to remain involved in the Illinois Section of ITE or another local section if you end up somewhere other than Illinois. You should have received a message from ILITE containing information regarding your ITE membership as you begin your post-collegiate careers; if not, below is a recap with this information:

- Once you graduate, you will need to change your e-mail address from your .edu address to your personal or professional address to ensure you continue receiving messages from ITE International and the Illinois Section of ITE. You can do this logging into your profile on the ITE website [here](#).
- If you need to join ITE International or change membership grades, general ITE membership information can be found [here](#).
- The brand new [30-to-30 program](#) from ITE provides large discounts on membership to our young members. Your membership could even be free!

To the students we will see again next school year: I will be in contact with the student chapters in the early fall. If you need our assistance with a student chapter event or have any questions regarding ITE, please e-mail me at illinoisite+studentaffairs@gmail.com.

ITE Midwestern District Collegiate Traffic Bowl Competition

The Midwestern District's 8th Annual Collegiate Traffic Bowl will take place on June 27th during the MWGLITE District Conference in Chicago. The winning school at the District level will advance to the ITE International Collegiate Traffic Bowl Championships to be held in August at the 2016 International Annual Meeting in Anaheim, California. Best of luck to all schools, but especially our Illinois chapters!

The MWGLITE meeting in Chicago will also include

- Student Design Competition - Sunday, June 26th
- Student Networking Pizza Event - Monday, June 27th
- Student Poster Session - Tuesday, June 28th
- Student Resume Workshop - Tuesday, June 28th
- Student-Practitioner Forum - Tuesday, June 28th

All events will be held at the Holiday Mart-Plaza in Chicago. More information can be found at the conference website here: <http://chicago2016mwglite.com/>

Public Affairs News and Announcements

By Public Affairs Director Monica Shei

Boy Scouts Traffic Safety Merit Badge:

Illinois ITE is looking to partner with a local Boy Scouts troop in the Chicagoland area in regards to the Traffic Safety Merit Badge program! If any of our membership has experience, ideas, or is involved with their own local troop and would like to get involved, please contact Monica Shei at monica.shei@jacobs.com for further coordination.

ITE International Liaison Committee Members:

Illinois ITE is interested in expanding our coordination with ITE International Committees and to expose more members to these volunteer opportunities. If you are interested in an opportunity to serve as a liaison member or have had experience in an ITE International Committee, please contact Monica Shei at monica.shei@jacobs.com for further coordination. More information can be found here: <http://www.ite.org/councils/index.asp>.

Operations News and Announcements

By Operations Director Katelyn Bleach

ILITE Website

Work on the section website has been ongoing and should be completely updated soon. If you see something on the website that still requires updating, please don't hesitate to let us know. As always, we will also be using our social media to let our members know about upcoming events, so be sure to check those as well. [Visit our Webiste!](#)

ITEms

Have a newsworthy story or an idea for an article? Want to advertise your business and place an ad in ITEms? Have a job posting and want to get the word out? Tell ITEms all about it! Send your article submissions to the editor: Ashley Hochstatter at Illinoisite.editor@gmail.com and all advertising requests to illinoisite+operations@gmail.com

Activities News and Announcements

By Activities Director Sanjay Joshi

We have some exciting events coming up this summer including a summer social event at Kensington Roof Grill Garden and Lounge and our 6th Annual Golf Outing with WTS benefiting scholarship funds for both organizations. Check out the [Upcoming Events](#) section of this issue for more information.

Technical News and Announcements

By Technical Director Jenna Brose

We have an upcoming snack and learn discussing the use of technology for practical purposes in work zones. To find out more about this webinar and how to register see the [Upcoming Events](#) section of this issue. More technical events are coming! Be on the lookout for more information to come.

What Has The Illinois Section Been Up To?

2016 Illinois Section ITE Student Day Event

By Student Affairs Director Craig Jakobsen, P.E.

The Illinois Section of ITE (ILITE) held the annual Student Day Career Fair + Luncheon on Friday, March 11, 2016 at the Illinois Institute of Technology campus in Chicago. Student Day is a career fair and networking event targeted at Illinois transportation students and companies.

This year, the morning career fair session was attended by students from several Illinois universities as well as representatives from eleven companies. Students and employers were encouraged to discuss opportunities from full-time, part-time, and even internships during the event. Thanks goes out to all of the companies who attended this year:

- AECOM
- Civiltech Engineering, Inc.
- DAMA Consultants
- ESI Consultants
- EJM Engineering, Inc.
- Hanson Professional Services, Inc.
- HR Green
- Parsons
- STV, Inc.
- Thomas Engineering
- TranSystems

Students participate in the ILITE Student Day Career Fair

We were even visited by **Cal Bear** and MWITE Student Affairs Director **John Davis** this year to provide more information on the upcoming MWGLITE conference in Chicago.

As part of the pre-registration for the ILITE Student Day Career Fair, students were provided the opportunity for a free résumé review by **Rachel Cantor Fogarty** of **RC Associates, LLC**. Students electronically submitted résumés and received comments back from Rachel the week before the ILITE Student Day Career Fair, giving them plenty of time to make updates before meeting with potential employers. Many thanks to Rachel for another year of this free service!

After the career fair portion of students and professionals sat down for lunch where they could talk more informally. Students and professionals were encouraged to sit with each other so that each of the two sides could have representation in the discussions at each table.

The Illinois Section of ITE would like to sincerely thank all of the students and professionals that joined us for this year's Student Day event! We would also like to thank Rachel Cantor Fogarty of RC Associates for providing complimentary résumé reviews for the students. The Section always welcomes any comments and suggestions about the Student Day event that may help us improve the event next year and beyond. See you next year!

John Davis and Cal Bear discuss the upcoming conference

April Luncheon Meeting with Kay Batey

Division Administrator for the Federal Highway Administration's Illinois Division

On April 20th, **Ms. Kay Batey**, FHWA Administrator for Illinois, addressed a group of 40 at Maggiano's Little Italy in River North. Ms. Batey has been Division administrator for FHWA for almost 3 years and in that time has directed a staff of 33 professionals that deliver the Federal Aid Highway Program in Illinois. Ms. Batey gave a fascinating summary of her impressive career which includes 11 years as FHWA Assistant Division Administrator for Alabama, 8 years as the Planning and Project Development Engineer in North Carolina, four years as a Transportation Engineer in the Louisiana Division and several years as an Environmental Engineer for the Maryland Division.

She took the group through the history of the US roadway policy and the significant changes in each federal Highway Act (later Surface Transportation Act) that Congress passed. She also explained some of the frustrating times when political realities resulted in multiple "continuing resolutions" as a band-aid when the political climate was such that compromise between the parties and/or between the chambers of Congress meant that the Act was drawing to an end, and could not be replaced with a multiyear vision for transportation by the time of expiration. She culminated with highlights of the current Act, the FAST Act, which was signed into law by President Obama on December 4, 2015.

The Fixing America's Surface Transportation (FAST) Act is five-year legislation to improve the Nation's surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network. The bill reforms and strengthens transportation programs, refocuses on national priorities, provides long-term certainty and more flexibility for states and local governments, streamlines project approval processes, and maintains a strong commitment to safety.

A Review of the Institute of Transportation Engineers (ITE) Webinar: Integrating Speed Management within the Three Safety Focus Areas: Roadway Departure, Intersections, and Pedestrian and Bicyclist

By: Dr. Mouyid Islam, CH2M

On May 05, 2016, the Illinois Section of ITE hosted a snack and learn webinar event to learn about experiences on speed management in three focus areas. The four webinar instructors were **Guan Xu** from **Federal highway Administration (FHWA)**, **Richard Retting** from **Sam Schwartz consulting**, **Shauna Hallmark** from **Iowa State University**, and **Michelle Neuner** from **Leidos consulting**. The ITE webinar was held in Rosemont, Illinois. **Christopher B. Burke Engineering, Ltd.**, kindly volunteered to offer their conference room for this webinar.

This webinar has four presentation components, which were presented sequentially 1) speeding, safety focus, and speed management, 2) speed management strategies, 3) role of speeding in fatal crashes, and 4) speed management in agency's overall policies.

Speeding was defined as exceeding the posted speed limit or driving too fast for conditions. This safety issue was further explained in the light of three major Emphasis Areas (EAs) - roadway departure, intersection, pedestrian and pedalcyclists. These three EAs account for 90 percent of total traffic fatalities. It is interesting to know that speeding is major contributing factor for 40% of roadway departure fatal crash, 20% intersection fatal crashes, and 8% of pedestrian/ pedalcyclist fatal crashes. To address these major safety concerns, it is important to incorporate the speed management program into roadway engineering and behavioral issue, engineering safety initiatives, and 3-E countermeasures. There are a number of good resources recommended by the FHWA for these speed management strategies as indicated by **Guan Xu**.

The second component of the presentation discussed the state of practice on speed management strategies. **Richard Retting** discussed policies and procedures, safety plans and focus areas, and research publications and guidance. Then, policies and procedures aligned with Manual on Uniform Traffic Control Device (MUTCD) or some national level guidance on speed limit, related signs and markings were highlighted. Arizona, Florida, Massachusetts, Iowa, Delaware, and Pennsylvania are some leading states where MUTCD and its practice is implemented. He presented the safety plan and focus area as reflected in Strategic Highway Safety Plan (SHSP) that was implemented in some states. For example, 15 states included roadway departure, 9 states included intersections, and 7 states included pedestrians into their EA list.

With safety plans and focus areas, 20 states and number of local agencies have developed focused safety actions and implemented plans. Regarding research publications, National Cooperative Highway Research Program (NCHRP) Report 500 - Volume 23: A Guide for Reducing Speeding-related Crashes and other online FHWA documents are resourceful, as he pointed out.

The third component of the presentation was led by **Shauna Hallmark**, she highlighted speed-related safety issues. Speed related crashes make up 30 percent of total fatal crashes and carry an average societal cost of \$52 billion annually. In this part, a detailed data analysis based on Fatality Analysis Reporting Systems (FARS) was performed to understand the role of speeding in fatal crashes with the characteristics of crash, vehicular, road and environmental factors as well as the socio-demographics of the drivers and occupants involved in roadway departure, intersections, and pedestrian and pedalcyclist fatal crashes. Figure 1 presents the share of three EAs and speeding-related fatal crashes.

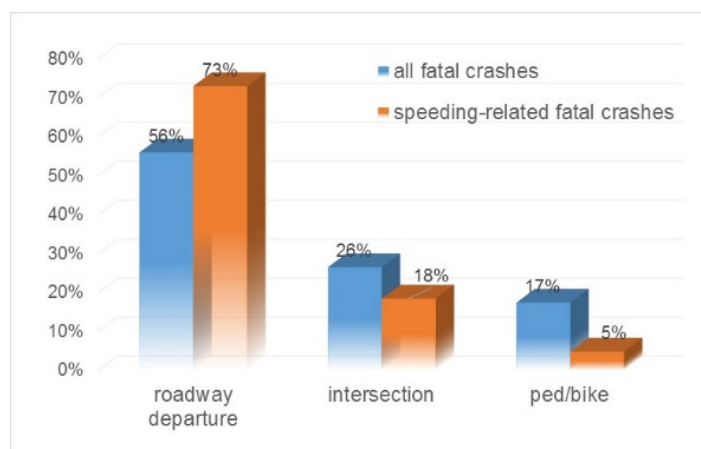

Figure 1: Percent Share of Speeding as Contributing Factor for Roadway Departure, Intersections, and Pedestrian and Pedalcyclist Fatal Crashes

Finally, the fourth presentation component by **Michelle Neuner** highlighted the programmatic strategies on policies, procedures, and practices. These programmatic strategies include establishing or enhancing polices, safety plans, and performance measures, educating and improving awareness, collaborating with stakeholders, establishing process for analyzing speeding-related crash data. Figure 2 highlights the importance of speeding as the core of three overlapping EAs where a Venn diagram reflects their relative share in fatal crashes resulting in fatalities. These three EAs account for 90% of total traffic fatalities, where speeding is found to be the major contributing factors for these fatalities. In order to design appropriate countermeasures for these focus areas, strategies need to be tailored to the detailed crash data analysis encompassing road, drivers, environment, vehicle type and crash type.

The presenter pointed out some keys issues and relevant potential strategies for these three EAs. Finally, the presenter concluded with the following key points -

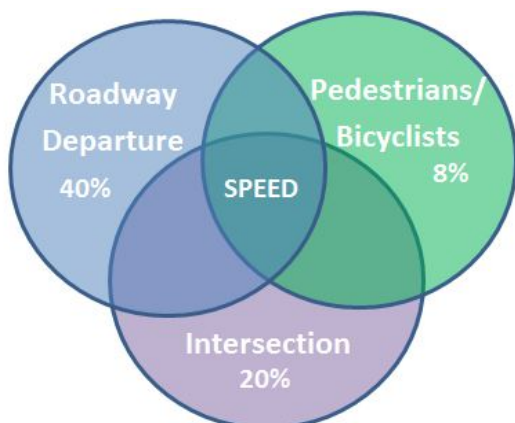

Figure 2: Speeding as a Contributing Factor for Three Major Emphasis Areas

Speed management helps State and local agencies meet their safety goals, Addressing focus areas is a solid way to address complex problem of speeding, and A broad look at existing policies and programs can identify opportunities to integrate speed management.

All the presenters during their presentation listed a good number of resourceful references, national guidance, and tools that the agencies should consider and revisit them with appropriate time and scope of work opportunities.

This particular webinar was well attended by the professional traffic and safety engineers from the local public and private sector. The Illinois section thanks all the participants for attending and **Christopher B.**

Burke Engineering, Ltd. for providing the venue for such an important webinar.

May Luncheon with Jason Salley: Illinois Route 59 Construction Project

The May 2016 Luncheon consisted of an overview of the Illinois Route 59 Construction Project and a bus tour of the newly constructed diverging diamond interchange. **Jason Salley, IDOT District 1 Geometrics Unit Head**, led the presentation, hosted in collaboration with the City of Naperville.

Over 60 professionals attended the luncheon at the Naperville Municipal Center and filled the tour bus. The presentation covered the history of the project, proposed alternatives, and the selection of the diverging diamond interchange. Attendees heard about the design considerations of DDI's including operations, safety, pedestrian accommodations, and cost. The audience was very interested in Mr. Salley's "lessons learned" while going through the design and construction of this project.

Jason Salley, IDOT District 1, presenting an overview of the Illinois Route 59 Construction Project

The event concluded with a charter bus tour along the entire project limits. Mr. Salley pointed out various features along Route 59 which had been covered in his presentation. The bus traveled through the diverging diamond interchange several times, allowing participants a firsthand experience of the DDI design and operations. Multiple diverging diamonds are now being proposed in Illinois, making this a topic of interest for many transportation professionals.

Diverging Diamond interchange at Illinois Route 59 and I-88

A Review of the ITE Webinar: TRB Webinar: Scalability of Roundabouts

On March 24th, 2016 the Illinois Section of ITE hosted a Lunch and Learn for the TRB webinar: Scalability of Roundabouts with speaker **Brian Walsh** of **WSDOT**. The presentation covered the safety and delay benefits provided by roundabouts over a typical signalized intersection. Following this, there was discussion of the flexibility of the modern day roundabout. There are four main roundabout variations: mini roundabout, compact roundabout, conventional roundabout, and central island mountable. For example, a central island mountable roundabout was implemented where there was constrained right-of-way but a need to circulate large trucks. The small mountable roundabout (82') was implemented for under \$100,000. Brian also noted that curb details are an important design parameter that must not be overlooked. In order to accommodate truck movements a 2" curb should be used and a rolled curb may be used on the central island. The overall message relayed was that roundabouts can be a very desirable intersection alternative if implemented properly.

The Technical Group looks forward to doing more viewings this year. We want to thank all the attendees for participating in the event and **AECOM** who was generous to offer their conference room.

ITE News and Announcements

JUNE 26-28, 2016

2016 MIDWESTERN/GREAT LAKES DISTRICT MEETING

CHICAGO

The Changing Face of Transportation

Please join us in the heart of Chicago, IL for the ITE Midwestern and Great Lakes joint district meeting!

It all begins this Sunday!
June 26 - 28, 2016

This meeting will represent 14 states, providing an opportunity for attendees to network with a diverse group of transportation professionals and to experience a robust technical program focusing on the latest trends in transportation. It will be located at the Holiday Inn Chicago-Mart Plaza River North, steps from downtown Chicago's famous restaurants, shops, and attractions.

There are some very interesting topics in store for you from Deep Dish Data: New Uses for Probe Vehicles to Saving Ferris! Prioritizing Safety Programs and some awesome technical tours in the heart of Chicago itself!. [Check out the full program here!](#)

What's that? You haven't registered and still wish to attend? Well you are in luck! The following will be offered for walk up registration:

• Full (Two Day) Registration	\$415
• Monday - Registration	\$270
• Tuesday - Registration	\$270
• Monday - Lunch Only - ITE Member	\$65
• Monday - Lunch Only - Non Member	\$75
• Tuesday - Lunch Only - ITE Member	\$65
• Tuesday - Lunch Only - Non Member	\$75
• Sunday Welcome Reception	\$10
• Monday - 606 Technical Tour	\$20
• Tuesday - Loop Link Technical Tour	\$20
• Tuesday - Riverwalk Technical Tour	\$20
• Tuesday - YPT Social	\$15

Check out the website: <http://www.chicago2016mwglite.com>

Legislative Corner

Columbus Awarded \$50 Million in USDOT Smart City Challenge

Columbus, Ohio has won USDOT's Smart City Challenge, nabbing the \$50 million "smart city" prize to develop Columbus into the nation's proving ground for intelligent transportation. The city beat out six other finalists for \$40 million in federal start-up funds and \$10 million from Microsoft co-founder Paul Allen's Vulcan company. Initial plans include developing a smart card and app to cover bus fares and car-sharing services and to expand the use of electric vehicles. The city also has about \$90 million in local matching commitments, including \$19 million in public money.

<http://www.dispatch.com/content/stories/local/2016/06/21/Columbus-Smart-City-grant.html>

If you missed it - watch Columbus' and the other seven finalists' video pitches here:

Chicago's City Council Approves Ride-Share Regulations

Chicago's City Council has approved a water-downed ordinance Wednesday to regulate the rideshare industry in the city. Companies such as Uber and Lyft will now be required to get a transportation network driver license and will be required to continue administering criminal background checks. The issue of fingerprinting has been stalled for the time being. Instead, a six-month study on fingerprinting drivers for background checks for rideshare companies will be conducted.

<http://www.nbcchicago.com/blogs/ward-room/City-Council-Approves-Watered-Down-Rideshare-Regulations-384001411.html>

Illinois DOT Prepares to Shut Down Road Projects Statewide

Transportation projects in both construction and engineering phases across Illinois will be shutting down starting June 30th due to the budget impasse. Governor Rauner has stated that all transportation projects "will be suspended unless the General Assembly passes the stopgap budget proposed by the GOP Leaders".

<http://www.chicagotribune.com/suburbs/lake-county-news-sun/news/ct-Ins-state-budget-impasse-construction-shutdown-st-0623-20160622-story.html>

The Changing Face of Transportation

When: This Sunday! June 26 - 28, 2016

Where: Chicago Mart Plaza, 350 West Mart Center Drive at River North Point, Chicago, IL 60654

Please join us in the heart of Chicago, IL for the ITE Midwestern and Great Lakes joint district meeting!

This meeting will represent 14 states, providing an opportunity for attendees to network with a diverse group of transportation professionals and to experience a robust technical program focusing on the latest trends in transportation. It will be located at the Holiday Inn Chicago-Mart Plaza River North, steps from downtown Chicago's famous restaurants, shops, and attractions.

Check out the website: <http://www.chicago2016mwglite.com/>

Snack and Learn Webinar - Using Technology for Practical Purposes in Work Zones

When: July 12, 2016 from 1:00 PM - 2:30 PM

Where: AECOM, 303 East Wacker Drive, Chicago, IL 60601

Want to advertise?

Place your card in ITEMs by contacting:
William Eidson
Illinois.ite.ads@gmail.com

Hey Section Member!

Get involved! To volunteer on an ILITE committee, contact the group's director.

Do you have a news-worthy story?

Tell ITEMs all about it! Send your article submissions to the editor:
Ashley Hochstatter
Illinoisite.editor@gmail.com

Refer a Friend!

The Illinois Section will send an issue of ITEMs to your friend or business acquaintance who may be interested in joining ITE. Email the contact information to the editor at: Illinoisite.editor@gmail.com. The contact will be provided membership information and acknowledgement of your referral.

ITEMs is the official publication of the Illinois Section of ITE. Opinions expressed herein do not necessarily reflect official Institute or Illinois Section policy unless so stated. Advertisements do not constitute endorsements of products or services.

ITE is hosting a webinar as an event for the benefit of ITE members and guests. The event will be shown at AECOM's office in Chicago, IL. The webinar will be followed by time for discussion among your peers, 1.5 PDH's will be available to attendees after the webinar event.

The Transportation Research Board (TRB) will be covering:

- Planning-Level Assessment Tools for Work Zone Operations and User Cost
- Delivering Work Zone Information Messages Using Dedicated Short Range Communication Technology
- Moving FHWA Work Zone Driver Model Towards Practical Application

At the end of the webinar participants will be able to:

- Understand how to estimate and evaluate performance at respective work zones
- Describe the use of vehicle-to-infrastructure technologies for work zone safety
- Discuss how to use work zone micro-simulation output data for real-world analysis

About the Speakers:

- **Bastian Schroeder**, Kittelson and Associates, Inc.
- **Navin Katta**, Savari Inc
- **Andrew Berthaume**, USDOT Volpe Center
